

Inomjon Toshmirzayev

Full-stack Developer & AI Integration Engineer

toshmirzayev-inomjon.online | Kitob / Shahrisabz, Uzbekistan

PROFILE

I build fast, scalable web applications, admin dashboards and AI-powered workflows with React, Next.js, PostgreSQL and Python.
My focus is clean interfaces, reliable backends and production-ready delivery.

CORE SKILLS

React, Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL,
Python, Node.js, OpenAI API, Telegram Web Apps, Git, Cloudinary.

EXPERIENCE

Full-stack Developer & AI Integration Engineer - Independent Projects	2024 - Present
Building web applications, dashboards and AI integrations with modern frontend, backend and automation tooling.	
Next.js Developer - Full-stack Projects	2022 - 2024
Implemented responsive interfaces, API routes, auth flows and admin panels.	
Automation Developer - Client Integrations	2021 - 2022
Created Telegram bots, workflow automations and external API integrations.	

SELECTED PROJECTS

AI Portfolio Admin

A full-stack portfolio dashboard for managing profile content, projects, location data and verified contact messages from one secure admin panel.
Stack: Next.js, React, Prisma, PostgreSQL

AI Assistant Workflow

An automation workflow for qualifying leads, organizing support questions and routing Telegram messages with AI-assisted logic.
Stack: Python, OpenAI API, Next.js, Telegram
